

Count the value of coins in cents and circle the number that equals this amount.

$$\text{Penny} + \text{Five Cent} + \text{Dime} = \text{23} \quad \text{16}$$

$$\text{Dime} + \text{One Cent} + \text{Quarter} = \text{31} \quad \text{29}$$

$$\text{Five Cent} + \text{One Dime} + \text{Dime} = \text{40} \quad \text{35}$$

$$\text{Quarter} + \text{Five Cent} + \text{Five Cent} = \text{35} \quad \text{55}$$
