

Let's Practice Numbers!

In each row, trace the ordinal number indicated by the yellow star.

Row 1: A row of eight stars, with the fifth star from the left being yellow and the others light purple. To the right are large dashed outlines of the numbers 5, 4, and 3 for tracing. Each number has a red dot at the starting point and numbered arrows (1, 2, 3) showing the stroke order.

Row 2: A row of eight stars, with the sixth star from the left being yellow and the others light purple. To the right are large dashed outlines of the numbers 6, 4, and 3 for tracing. Each number has a red dot at the starting point and numbered arrows (1, 2) showing the stroke order.

Row 3: A row of eight stars, with the seventh star from the left being yellow and the others light purple. To the right are large dashed outlines of the numbers 7, 4, and 3 for tracing. Each number has a red dot at the starting point and numbered arrows (1, 2) showing the stroke order.

Row 4: A row of eight stars, with the eighth star from the left being yellow and the others light purple. To the right are large dashed outlines of the numbers 8, 4, and 3 for tracing. Each number has a red dot at the starting point and numbered arrows (1, 2, 3) showing the stroke order.
