

PROMOTING a Pawn

If a pawn reaches the **last rank**, the player gets to **replace it with any of the more powerful pieces** - a queen, a knight, a bishop or a rook. This complex move is called **promotion**. If a pawn makes a capture on the last rank, the pawn gets promoted as well.

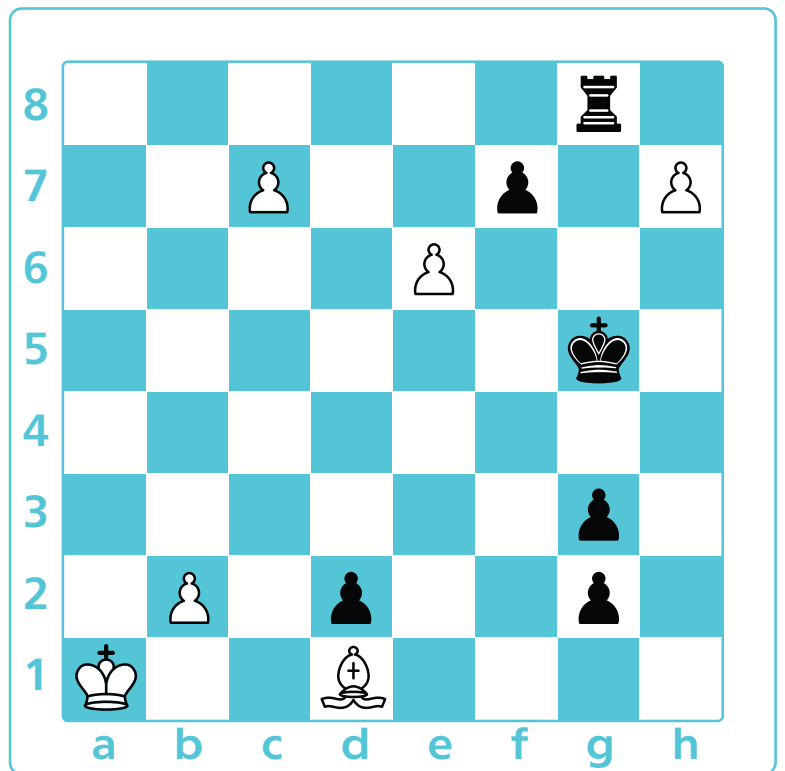

a capture on the last rank, the pawn gets promoted as well.

You can't promote your pawn to a king!

Look at the board and decide which of the pawns can be promoted in the next move. Check the correct answers below.
