

Arrays and Equations

You can represent an array in two ways:

4 columns

3 rows

$$3+3+3+3=12$$

or

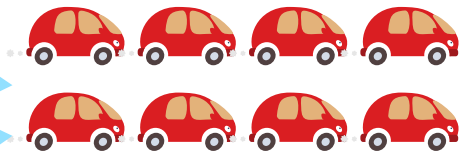

$$4+4+4=12$$

In both cases the sum will be the same.

Trace on the dotted lines from the number sentences to the cars that match.

$$3+3=6$$

$$2+2+2+2=8$$

$$4+4=8$$

$$2+2+2=6$$

$$4+4+4=12$$

$$2+2+2+2+2=10$$

$$3+3+3+3=12$$

$$5+5=10$$
