

# Bugs and Legs Fact Families

How many bugs and legs do you see?

Check the group of bugs that matches the fact family equations.

A spider has 8 legs.

$$8 \times 3 = 24$$

$$24 \div 3 = 8$$

An ant has 6 legs.

$$6 \times 3 = 18$$

$$18 \div 3 = 6$$

A ladybug has 6 legs.

$$6 \times 4 = 24$$

$$24 \div 6 = 4$$

A scorpion has 8 legs.

$$8 \times 3 = 24$$

$$24 \div 3 = 8$$
