

Let's Regroup!

Trace a line to the correct sum for each equation.

81 ← $26 + 57 = ?$ → **83**

63 ← $35 + 28 = ?$ → **60**

93 ← $68 + 23 = ?$ → **91**

The page features three rows of math problems. Each row consists of a cartoon child on the left holding a sign with a number, a central equation box with a ten-frame, and another cartoon child on the right holding a sign with a number. Dashed arrows point from the equation boxes to the sign numbers. The equation boxes are designed for students to use base-ten blocks to solve the problems. Each box contains a ten-frame with a plus sign in the center and a question mark in a red box to the right of the equation. The first row is green, the second is teal, and the third is purple.
