

MATCH IT UP

Trace on the line to the parts that build the shapes in the middle.

The worksheet is a matching exercise. It features a central column of five boxes, each containing a yellow hexagon. To the left and right of this column are various geometric shapes: orange trapezoids, blue diamonds, and green triangles. Dashed lines with arrows indicate the connections between these shapes and the hexagons. The connections are as follows:

- Row 1: An orange trapezoid and two blue diamonds on the left; an orange trapezoid and two green triangles on the right.
- Row 2: Two green triangles on the left; two blue diamonds on the right.
- Row 3: Three green triangles and one blue diamond on the left; four orange trapezoids on the right.
- Row 4: Two green triangles and one orange trapezoid on the left; one blue diamond and one green triangle on the right.
- Row 5: Three green triangles and two blue diamonds on the left; three blue diamonds and one orange trapezoid on the right.

Two robots are placed in the grid: a red and blue robot in the second row, and a blue and green robot in the fourth row.

Worksheet Answer Key.

Scan the QR code to get the answer key for this worksheet. In it, you'll also find an explanation of how to solve the worksheet and additional learning resources.
