

WHICH IS THE TALLEST?

Listen to the descriptions of the heights of these landmarks and then put them in height order. Check 1 for the shortest landmark and check 4 for the tallest.

The **Statue of Liberty** is the shortest landmark and stands 300 feet less than the **Space Needle**. The **Empire State building** is the tallest and is the only one over 1 thousand feet. The **Eiffel tower** is taller than the **Space Needle**, but not as tall as the **Empire State Building**.
