Commutative Property of Addition

If you change the order of addends, the sum will not change. For example, if $3 + 4 = 7$, then $4 + 3 = 7$.

Complete the following sentences using this rule. Check the correct answer.

If $2 + 8 = 10$, then $8 + 2 = \_\_$

8 ☐   **12** ☐   **10** ☐

If $3 + 2 = 5$, then $2 + \_\_ = 5$

5 ☐   **3** ☐   **2** ☐

If $4 + 5 = 9$, then $\_\_ + 4 = 9$

4 ☐   **5** ☐   **6** ☐
