

Place Value: Assessment 3

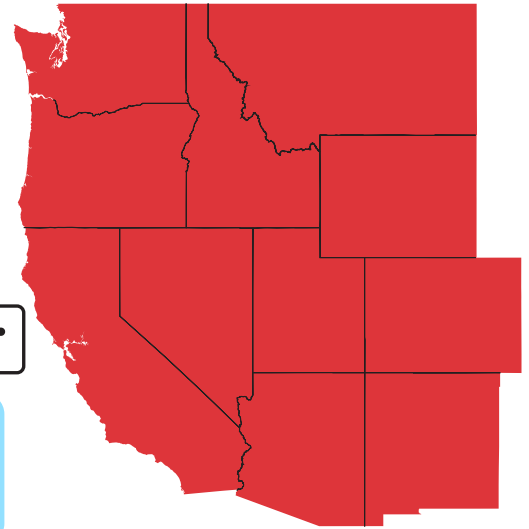

The United States is divided into regions, which means different states are grouped together by their location.

See the pictures below with total number of states in the Southern and Western Regions. Check the box under the region that has the **greater** number of states.

South

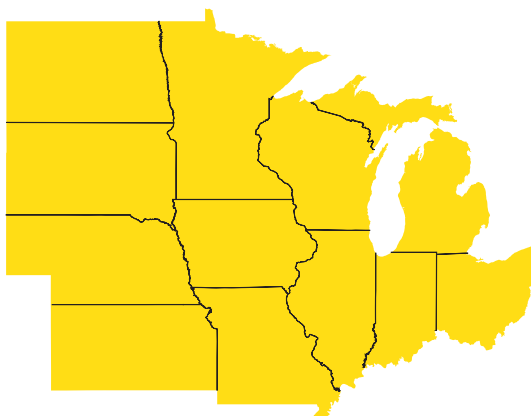

17

West

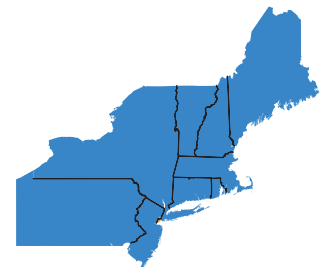

13

Now look at the Midwest and Northeast regions shown below. Check the box under the region that has **less or fewer** states.

Midwest

12

Northeast

9
