# Geometry Riddles

An **edge** is a line segment that joins two vertices.
A **vertex** (plural: vertices) is a point where two or more straight lines meet. It is a corner.
A **face** is an individual flat surface.

Match each clue to the correct shape.
Draw a circle around the correct figure.

This shape has
8 vertices.

This shape has
1 face.

This shape has
1 vertex.

This shape has
6 faces.
