

# Counting and Comparing: Assessment 1

## Flowers Need Sunlight to Grow!

Check the correct answer to complete the counting sequence.

A flower bed containing eight tulips. From left to right, the petals are purple (585), orange (586), red (?), purple (588), orange (589), red (?), purple (591), and orange (592). Below the bed are four boxes: the first two are labeled 596 and 587, and the last two are labeled 590 and 580.

A flower bed containing eight tulips. From left to right, the petals are red (593), purple (594), orange (?), red (596), purple (597), orange (598), red (599), and purple (?). Below the bed are four boxes: the first two are labeled 599 and 595, and the last two are labeled 600 and 500.

Check the number that is represented by the following:

**seven hundred thirty-two**

237

732

70032

Check the words that match the following number: **816**

eight hundred sixteen

eight hundred sixty

eighty-six
