

More Octopus Facts

Read about octopuses.

Circle the answers to the questions below.

Octopuses live in tropical ocean waters.

They can change their skin color to blend in with the surroundings and hide.

If threatened, octopuses can shoot a black fluid that darkens the ocean. This scares the predator and makes it hard to see the octopus.

1 Where does the octopus live?

sand

ocean

castle

2 Why does the octopus change its skin color?

to hide

to think

to run

3 What does it use for protection?

predator

fluid

fish
