

Dividing with Landforms

Solve the word problems and check the correct answers.

- 1.** There are **3** major mountain ranges in the United States. Penny and her father climbed **21** mountains. They climbed the same number of mountains in each mountain range. How many mountains did they climb in each range?

- 2.** James and his sister were paddling a canoe down the river. Every **4** miles, they stopped to rest. If they traveled **12** miles, how many times did they stop to rest?

- 3.** Carla went camping with her family. The campground was next to a lake. Around the lake were **5** different campsites for tents. If there were **25** total tents, and there was an equal number of tents at each site, how many tents were in each campsite?
