

FLAG AREA

Read the labels then check the box for the correct answer.

$$\text{LENGTH} \times \text{WIDTH} = \text{AREA}$$

1. What is the length of the flag?

6 8 9

2. What is the width of the flag?

4 8 5

3. How can we find the area of the flag?

$6 \times 8 = 48$ $5 \times 6 = 30$ $8 \times 5 = 40$

1. What is the length of the flag?

6 8 9

2. What is the width of the flag?

4 7 8

3. How can we find the area of the flag?

$6 \times 3 = 18$ $9 \times 7 = 63$ $7 \times 7 = 49$
