## SHAPE QUEST

Identical shapes can be made up of equal shares that look different.

In each row find and circle two shapes that are made up of equal shares.

|  | $\rightarrow$ |  |  |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  | $\square$ |  | $\square$ |
