Growing Crops in Jamestown KIDS

Read each word problem and check the equations that match. Then circle the correct products.

🕒 In Jamestown, the Native Americans taught the colonists how to grow corn.

They grew 2 rows of corn, with 10 stalks of corn in each row. How many stalks of corn were there in all?

In Jamestown, the colonists grew squash. They planted 2 rows of squash with 6 squashes in each row. How many squashes did they have altogether?

$$6+2=2 \times 6=2$$

$$2x6=?$$
