

# Jupiter Facts

Read the Jupiter facts below.  
Then, check the statements as True or False.

Jupiter is the largest planet in our Solar System. It has thick, colorful clouds of gases around it. At the center of Jupiter is a rocky core.

Jupiter spins very quickly on its axis. A day on Jupiter lasts only 9 hours and 55 minutes.

Jupiter has over 50 moons. It also has rings, just like Saturn, but you can't see them all that well.

Jupiter is famous for its Great Red Spot. The Red Spot is a huge storm that has been raging for over 150 years.

Earth is bigger than Jupiter.

☐

True

☐

False

A day on Jupiter is longer than a day on Earth.

☐

True

☐

False

Jupiter has many more moons than Earth.

☐

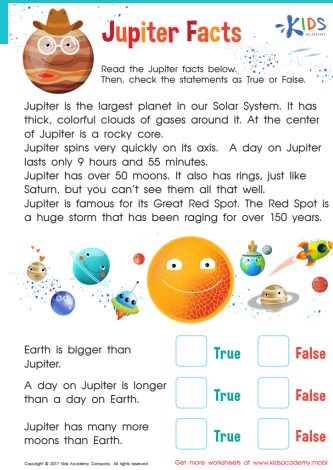

True

☐

False

## Worksheet Answer Key.

Scan the QR code to get the answer key for this worksheet. In it, you'll also find an explanation of how to solve the worksheet and additional learning resources.

## Complete this worksheet online.

Scan the QR code below to open this interactive worksheet!

Let your child learn and play! The worksheet comes with a professional voice over of the task, and will be automatically checked and scored upon completion. Your child will also get suggestions of similar activities.

You can open this online worksheet in any browser and on any device. NO registration or app installation is needed to start learning. Just scan the QR code and there you are!
