

# CLIMATE VS WEATHER

Weather and climate are similar, but different. Trace the line indicating if the statement refers to climate or weather.

W E A T H E R		C L I M A T E
	 <p>Average weather conditions of a region.</p>	
	 <p>Condition of the air at a certain point in time.</p>	
	 <p>Rain forest regions are hot and wet year after year.</p>	
	 <p>The forecast for tomorrow is for seven inches of snow in New York.</p>	
	 <p>Desert regions have very little rain.</p>
