

Rainy Day 17

Draw a line to all the ways to make 17.

The central illustration is a red and yellow polka-dot umbrella with a yellow circular sign on its handle containing the number 17. Dashed blue arrows point from the sign to six clouds, each containing an addition problem and a visual representation of the numbers using raindrops.

- Top-left cloud: $10+7$. Below it are 10 raindrops in two rows of five, followed by a plus sign and 7 raindrops in two rows of three and one in the middle.
- Top-middle cloud: $9+4$. Below it are 9 raindrops in two rows of five and four, followed by a plus sign and 4 raindrops in two rows of two.
- Top-right cloud: $9+8$. Below it are 9 raindrops in two rows of five and four, followed by a plus sign and 8 raindrops in two rows of four.
- Bottom-left cloud: $13+4$. Below it are 13 raindrops in two rows of seven and six, followed by a plus sign and 4 raindrops in two rows of two.
- Bottom-middle cloud: $6+5$. Below it are 6 raindrops in two rows of three, followed by a plus sign and 5 raindrops in two rows of three and two.
- Bottom-right cloud: $7+7$. Below it are 7 raindrops in two rows of four and three, followed by a plus sign and 7 raindrops in two rows of four and three.
